JSECOIN offers two mining pools:

Publishers place a code snippet on their website and visitors opt-in and mine while viewing their content.

Self-miners can use the platform or apps to mine from internet connected devices.

And we have some great opportunities for growth

OPT-IN BANNER

The opt-in banner notification is often the first interaction we have with a user.

As of April 2018 we are already receiving 10 million impression a day.

Great virality of the product.

AFFILIATES

The popular affiliate program generates growth by encouraging users to earn JSE tokens by sharing their referral link.

The project has grown so far mainly via organic reach and the affiliate program.

DIGITAL ADS

Key members of our team have a background in ad-tech. Effective digital advertising will be key to the projects success.

We want to reach as many users as possible to reach our long-term goals.

WEBMASTERS

Webmasters provide a very targeted market segment.

By focusing promotions on webmasters we aim to become the go to solution for web-based crypto which will then bring exposure to mainstream users.

April 2018 Current Figures

Registered Users: 63,000 Opt-In Miners: 8,500,000
